

Technical Product Bulletin

Number: DJTPB005

Name:	Terminal Pin
Application:	Terminal for printed circuit board.
Description:	This part serves as the interconnection link between a printed circuit board and wires in an electrical/electronic application.
Dimensions:	.660 inch overall length by .042 inch diameter shaft.
Material:	360 Brass Alloy, 1/2 hard.
Tolerances:	± .001 inch on the diameter of the shaft with most dimensions held to ± .002 inch.
Finishes:	Nickel flash with tin plating.
Fabrication:	Swiss screw machine.
Special Features:	Terminal pin must be readily solderable and tin plating must withstand solder temperatures to 250° centigrade without peeling or cracking.
