

Technical Product Bulletin

Number: DJTPB019A

- Name:** Tapped Terminal
- Application:** Automotive Cable Harness Connector.
- Description:** A terminal with a hollow shaft tapped with 6-32 threads. The smaller diameter portion of the shaft is knurled and has a .093 inch diameter hole. The knurled end of the terminal is designed to press fit into a thermoset insulator so the part won't rotate. The hollow portion can then be rolled over or flared to provide rivet like retention.
- Dimensions:** 7/32 inch diameter shaft by .634 inch length and .753 inch length.
- Material:** 7/32 inch diameter soft yellow brass
- Tolerances:** 0.005 inch with some dimensions held to 0.004 inch.
- Finishes:** None
- Fabrication:** Single spindle Swiss screw machine.
- Special Features:** No burrs allowed anywhere.
